

The graph consists of 25 nodes, numbered 1 through 25, arranged in a roughly circular pattern. The nodes are connected by a dense network of edges. The edges are colored red, green, or dark green. The red edges form a prominent path through the upper and middle sections of the graph, connecting nodes such as 1, 3, 4, 9, 15, 18, 24, 6, 7, 12, 13, 14, 21, 2, 17, 1, and 3. The green edges form a similar path through the lower and middle sections, connecting nodes such as 1, 2, 5, 11, 12, 13, 14, 21, 2, 17, 1, and 3. The dark green edges form a path through the upper and middle sections, connecting nodes such as 1, 2, 5, 11, 12, 13, 14, 21, 2, 17, 1, and 3. The graph is highly interconnected, with many edges between nodes that are not directly adjacent in the paths.
